

## sulfo-Cyanine5 dUTP

<http://hk.lumiprobe.com/p/sulfo-cy5-dutp>

sulfo-Cyanine5 dUTP (deoxyuridine triphosphate) is a modified nucleoside triphosphate for the enzymatic labeling of DNA. The triphosphate is an analog of Cy5-dUTP. However, unlike aminoallyl dUTP directly modified with dye, this triphosphate contains a longer linker arm that increases the efficiency of its incorporation by usual polymerases.

sulfo-Cyanine5 is a bright, far-red emitting dye for the Cy5 channel.

The triphosphate is supplied in the lyophilized ready-to-use form of lithium salt.

外观:	藍色固體
分子量:	1275.89
分子式:	$C_{49}H_{66}N_6Li_4O_{22}P_3S_2$
溶解度:	
质量控制:	
储存条件:	
法律声明:
